The VFW National Home Welcome Center Renovation Project

The goal is to remodel the existing lobby area into a welcoming retail space, updated reception and information area.

Just a few of the things that will be done with the renovation:

- Floors would be replaced with a nonslip surface
- A sidewalk would be added from the administration walkway to ensure ADA compliance
- Increase retail space and expand items carried for resident convenience, such as milk & bread
- Postal & parcel operations will be combined for resident & postal worker convenience
